

To All UA Canada Local Unions:

UA Canada has negotiated a reduced cost for the members of the UA to access LinkedIn Learning systems and wishes to make it available to members at this time. This is the system which is already available to all elected officers of the UA and administrative staff for their use with the cost being paid for by the Canadian Training Fund. We want to make this available to our members at a reduced cost. The more members that we can have on the system, the more we can reduce the final cost based on total users. See attached advertisement explaining the access.

These programs include all forms of training on supervision, construction technology, business education, computer skills, communications programs, and thousands of topics that can be beneficial to the membership for personal and practical development of their skills.

In order to sign up for this reduced rate of \$200.00 dollars per year for access to all the online programs available see the link below. Please share this with your membership.

The LinkedIn Learning purchase form is setup and available to members when they login at <https://login.nausc.ca>

Sign in to NAUSC Connectez-vous à NAUSC. Sign in. Trouble signing in.

Click here to report an issue. login.nausc.ca

Members will need their UA Card number and the last three digits of their SIN number to get access to this special rate for training courses.

Please contact Ryan Skalko if you have any questions on this platform or require help to access courses or have technical difficulties.

Terry Snooks
Canadian Director
